AUTHOR Aubert, Halldis
TITLE Handicap--Sport: A Preliminary Bibliography on Sport for the Disabled and the Ill, 1960-1973. Second Edition.
PUB DATE 73
NOTE 186p.

EDRS PRICE MF-$0.65 HC-$6.58
DESCRIPTORS *Athletic Activities; Athletics; *Bibliographies; *Physical Education; *Physically Handicapped; *Physical Recreation Programs

ABSTRACT

Information about books, periodicals, theses, dissertations, research projects and other printed documents from all over the world have been compiled into a comprehensive bibliography dealing with physical education, recreation, sports, and related areas for impaired, disabled, and handicapped persons; almost 2,000 entries are included. In addition to the main section alphabetized by authors, entries are indexed according to activities, disabilities and handicapping conditions, and miscellaneous categories such as bibliographies, competition, education, equipment, facilities, terminology, and testing. Entries are in the language of original publication; all other material is in English, Norwegian, German, and French. (Author)

Forord

HANDICAP - her i betydningen fysisk, psykisk eller sosial funksjonshemming.

IDRETT - termen er her tatt i sin videste betydning, slik Norges idrettsforbund har definert den i sin Idrettsterminologi, Oslo 1970:12 "Med idrett forstås fysisk aktivitet av ikke-yrkesmessig karakter, hvor utøverens egen innsats er avgjørende for resultatet." - Imidlertid har praktisk arbeid med handicap-idrett vist at grensen mellom idrett og terapi her er flytende, noe som har slått ut også i denne oversikten.

Planer for utdanning av handicap-idrettsinstruktører er under utarbeiding på flere hold, og interessen for litteratur om emnet er sterkt stigende. Jeg har derfor funnet det ønskelig å få ferdig en oversikt snarest, men da arbeidet med bibliografien hovedsakelig har måttet foregå i en på forhånd sterkt belastet fritid, er det i første omgang bare blitt en preliminær oversikt. Et tillegg vil komme snart.

Vel halvparten av henvisningene stammer fra primærlitteratur, resten fra sekundærlitteratur med de mangler dette kan medføre med hensyn til kategorisering av stoffet og til konsekvens i utformingen av referanser, og med fare for feilangivelser. Av samme grunn har jeg funnet det nødvendig med alfabetisk hoveddel. Generell litteratur om idrett og funksjonshemming finnes bare i hoveddelen. Spesifisert funksjonshemming og spesielle idrettsgrener finnes også i systematisk del med henvisning til hoveddelens fullstendige referanse. Det er skrevet analytter for enkelte hovedverk, som har vært tilgjengelige.

Mønster for henvisning til tidsskriftartikler:
Forfatter - tittel - In tidsskr.navn, årgang(år)nr.:første og siste side.

2. utg.

Nye litteraturhenvisninger, nr. 947 - 1978, er ført opp i eget alfabet, men er innarbeidet i systematisk del.

Dette er ikke noen endelig utgave. Det har foreløbig ikke vært mulig å få sjekket alle innførslene, så noen feil vil sikkert forekomme. Ønskemålet er å få utgitt en gjennomarbeidet og såvidt mulig fullstendig 10 årsutgave med årlige tillegg. På den 4. int. kongress for dokumentasjon i idrettsvitenskapene, Magglingen, mai 1973, ble denne bibliografien tatt opp som internasjonalt samarbeidsprosjekt noe som gir grunn til optimisme.

PREFACE

HANDICAP - meaning here physical, mental, or social disability.

SPORT - is here used in the broadest sense of the term as defined by Norges idrettsforbund, Terminologikomitéen, in their Idrettsterminologi, Oslo 1972:11. "By sport we mean the leisure time and hobby activities, where the position and movement of the body is the central element, and where the executer's own effort is decisive for the result."

Yet, pratice in sport for the handicapped has convinced me that there is no definite dividing line between sport for the handicapped and physical therapy, a fact that has influenced this survey.

Almost half of the references originate from primary literature, the rest from secondary literature, with possible errors in categorizing, and in the editing of references.

The references are gathered in an alphabetic main section, nos. 1-946 from the 1. ed., nos. 947-1978 are new entries. General literature on sport, physical education and disabilities are only to be found in the main section. Specific disabilities and specified sport activities are also to be found in a systematic section, referring to the main section for full details.

Analytic references are written for some available works.

The bibliography is still a preliminary one, as all the references have not been thoroughly chequed.

Pattern for article references:

Author - title - In journal, vol.(year)no.:first and last page.

VORWORT

VERSEHRT - hier in der Bedeutung physische, geistige oder soziale Behinderung.

SPORT - das Wort ist hier in seiner weitesten Bedeutung zu verstehen, wie Norges idrettsforbund es definiert hat, "Idrettsterminologi", 2.Ausg., Oslo 1972:11. Unter Sport verstehen wir Aktivitäten der Freizeit und Erholung, wo die Haltung und die Bewegung des Körpers das zentrale Element ist, und wo der eigene Einsatz massgebend ist.

Ungefähr die Hälfte der Nachweise stammen aus der Sekundärliteratur, mit Problemen u.a. für die Kategorisierung, und mit möglichen Fehlern.

Der Hauptteil ist alphabetisch in zwei Reihen geordnet, 1. Ausg.: No. 1 - 946, 2. Ausg. 947 - 1978. Allgemeines über Versehrtensport ist nur im alphabetischen Hauptteil zu finden. Spezielle Behinderung oder Sportart ist auch in dem systematischen Teil zu finden, auf den alphabetischen Hauptteil für Vollständigkeit hinweisend.

Von einigen vorhandenen Werken sind Analytten geschrieben.

Diese Ausgabe ist nur als einen Entwurf zu verstehen. Die Hoffnung besteht, später eine durcharbeitete und möglicherweise vollständige 10 Jahres-Ausgabe mit int. Standorthinweisen und mit jährlichen Neuerscheiningslisten veröffentlichen zu können.

Muster für die Aufstellung der Hinweise:
